To Whom It May Concern:

This is a letter of recommendation for HCR, Harris Construction. We first met Fred and Jesse Harris about a year ago. They came out and gave me an estimate for rebuilding our fireplace base. We went ahead and had them do the work. They did a wonderful job in less than 2 weeks time.

Then in Nov. we called them again this time for a much larger job, reconfiguring the master bedroom and bath walls, laying tile in the bath and wood flooring in the bedroom; plus replacing all doors in the house; and 2 closet sliders with glass. They also came up with some additional ideas that we had not even considered, that made the whole project even better than we had hoped possible.

The entire crew are hard working professionals. They showed up early, put in a full day and cleaned up after themselves every day. The entire job was finished on time and with complete satisfaction.

We recommend Harris Construction and look forward to them working on more projects we have in mind.

Sincerely
Jeff and Norma Stoker
